RAYMUNDO S. ALVAREZ

Active Top Secret Clearance (DoD)
Texas | raymundo.alvareztx@gmail.com | [Phone] | [LinkedIn]
Target Role: Info Tech Business Analyst V (Job ID 107110), Project Management Office, Texas Department of Criminal Justice

PROFESSIONAL SUMMARY

Business analysis and project delivery professional with an Active Top Secret clearance. Combines hands-on correctional operations and compliance experience with Google PMP, cybersecurity, data science, and AI infrastructure training. Bridges facility operations staff and technical delivery teams. Independently owns analysis efforts: elicits, analyzes, documents, prioritizes, and validates business and functional requirements. Challenges stakeholder assumptions, models future-state processes, maintains requirements traceability, and coordinates User Acceptance Testing (UAT). Has worked inside TDCJ facilities and understands how enterprise software lands on the unit floor. MBA candidate (4.0 GPA) and U.S. Marine Corps veteran.

KEY CERTIFICATIONS MATRIX

Project Management	Google Project Management Professional Certificate (Google PMP)
Data & Analytics	IBM Data Science Professional Certificate
Cybersecurity	IBM / ISC2 Cybersecurity Specialist
AI & Infrastructure	NVIDIA AI Infrastructure & Operations
Safety & Compliance	OSHA 30-Hour
Security Clearance	Active Top Secret (DoD)

PROFESSIONAL EXPERIENCE

Operations Supervisor & Compliance Officer **[Start Date – End Date]**
Texas Department of Criminal Justice (TDCJ) | Huntsville, TX

- **Bridged** facility operations staff and policy requirements by translating daily correctional workflows into documented, testable business requirements.
- **Elicited** requirements from line staff, supervisors, and leadership through structured interviews and floor-level observation, capturing real operational needs.
- **Audited** unit operations against TDCJ policy and compliance standards, identifying process gaps and inefficiencies. This reduced [Y: compliance findings / rework / incident rate] by [X%] through [Z: corrective workflow redesign].
- **Challenged** stakeholder assumptions by asking probing questions about root causes before accepting proposed fixes, so solutions addressed the real problem.
- **Modeled** current-state and future-state processes, documenting handoffs, decision points, and exceptions to guide improvements.
- **Maintained** traceability from policy and operational need through procedure and verification, so every requirement could be tied to its source and its outcome.
- **Validated** that procedures and tools worked as intended in the field by testing with the staff who use them. This is the same discipline UAT requires.
- **Prioritized** competing operational demands against safety, security, and compliance risk to focus staff on the highest-impact work.
- **Supervised** and trained [#] correctional staff, enforcing documentation standards and consistent procedure across shifts.

Emergency Response & Site Supervision **[Start Date – End Date]**
Harris County Juvenile Probation Department | Houston, TX

- **Led** emergency response and site supervision in a regulated, high-accountability environment, following documented protocols under pressure.
- **Documented** incidents, procedures, and compliance records accurately and completely so they could withstand audit and review.
- **Coordinated** across staff, leadership, and external stakeholders to resolve incidents and maintain continuity of operations.
- **Identified** gaps in response procedures and recommended improvements. This strengthened [Y: readiness / response consistency] by [X%] through [Z: procedural clarification and staff training].

- **Maintained** safety and compliance standards for the facility and the youth in its care.

Team Leader (0311 Infantry; 8156) & International Embassy Security / Logistics Manager **[Start Date – End Date]**
U.S. Marine Corps | Accra, Ghana & Ciudad Juárez, Mexico

- **Managed** embassy security and logistics operations in Accra, Ghana and Ciudad Juárez, Mexico, coordinating people, equipment, and schedules across international and interagency stakeholders.
- **Led** a Marine team, delivering mission-critical tasks to standard with accountability for personnel, equipment, and results.
- **Established** repeatable procedures and checklists that kept security and logistics operations consistent and auditable.
- **Safeguarded** sensitive information and operations under an Active Top Secret (DoD) clearance, maintaining strict access, handling, and reporting discipline.
- **Communicated** across technical, operational, and diplomatic stakeholders, translating complex requirements into clear direction.
- **Delivered** logistics and security outcomes, measured by [Y: on-time execution / zero-loss accountability / readiness rate], by [Z: planning, tracking, and verification procedures].

EDUCATION

Master of Business Administration (MBA), General Concentration **Expected December 2026**
American Military University | GPA 4.0

Bachelor of Arts, Interdisciplinary Studies
American Military University | GPA 3.6

CORE COMPETENCIES

Requirements Elicitation • Requirements Traceability • Business Process Modeling (Current/Future State) • Gap & Root Cause Analysis • Stakeholder Management • User Acceptance Testing (UAT) Coordination • Project Management (Google PMP) • Compliance Auditing • Data Analysis • Cybersecurity Awareness • Technical-to-Operations Liaison
